

SHKODRAN BERISHA

Senior Web Developer

ABOUT ME

Web Developer with more than 10 years of experience building and maintaining websites and online stores for clients across many industries. I take projects from the first idea through design, launch, and long-term support, making sure every site stays fast, secure, and easy to manage. I enjoy working closely with clients to understand their goals and turn them into reliable, user-friendly digital solutions that help their business grow.

One of five students selected to configure and develop the university's Moodle e-Learning platform and server, now used by all students and academic staff at www.uni-gjilan.net.

LANGUAGE

- Albanian (Native)
- English (Independent user)

EXPERIENCE

Freelancer

Current

Working as a Freelance Web Developer, creating responsive, user-friendly, and high-performing websites for clients across different industries. Managed projects from design and development to deployment and maintenance using WordPress, WooCommerce, Shopify, Wix, HTML, CSS, PHP, and JavaScript. Customized websites, built e-commerce stores, configured hosting, and worked directly with clients to deliver functional digital solutions that matched their business needs.

Senior Web Developer

2022 – Current

Taktika Studio

Designing and developing websites on the WordPress platform using page builders such as Elementor, Divi, and UX Builder, along with fully functional online stores built on both WordPress/WooCommerce and Shopify.

Providing ongoing maintenance for Shopify stores and WordPress sites, including core, theme, and plugin updates, content and structural changes, and security updates to keep every site stable, secure, and performing well.

Also managed hosting environments and domains through cPanel, handling day-to-day server administration and domain configuration.

Web Developer

2019–2022

AM PARTNERS GMBH

Designed and developed websites on the WordPress platform using page builders such as Elementor, Divi, and UX Builder, as well as fully functional online stores built with WordPress and WooCommerce.

Handled ongoing website maintenance, including WordPress core, theme, and plugin updates, content and structural changes, and security updates to keep sites stable, secure, and performing well.

Also managed hosting environments and domains through cPanel, covering day-to-day server administration and domain configuration.
